The Department may combine similar questions and give only one answer. All questions and answers will be compiled into a written amendment to this RFP. If any answer to any question constitutes a material change to the RFP, the question and answer will be placed at the beginning of the amendment and duly noted as such. The agency will release the answers to questions on the date(s) established in the Procurement Schedule. - Due Date: December 21, 2015

Hand delivered, faxed or e-mailed proposals will not be evaluated. Proposals received after the due date may be accepted by DPH as a clerical function, but late proposals will not be evaluated. At the discretion of the Department, late proposals may be destroyed or retained for pick up by the submitters.

An acceptable submission must include the following:

- one (1) original proposal;
- five (5) conforming copies of the original proposal; and
- one (1) conforming electronic (email, disc or flash drive) copy of the original proposal.

The original proposal must carry original signatures and be clearly marked on the cover as "Original." Unsigned proposals will not be evaluated. The original proposal and each conforming copy of the proposal must be complete, properly formatted and outlined, and ready for evaluation by the Screening Committee.

The electronic copy of the proposal must be compatible with **Microsoft Office Word 2010**. If a proposer deems that certain information required by this RFP is confidential, the proposer must label such information as CONFIDENTIAL. In Section C of the proposal submission, the proposer must reference where the information labeled CONFIDENTIAL is located in the proposal. *EXAMPLE: Section G.1.a.* For each subsection so referenced, the proposer must provide a convincing explanation and rationale sufficient to justify an exemption of the information from release under the FOIA. The explanation and rationale must be stated in terms of (a) the prospective harm to the competitive position of the proposer that would result if the identified information were to be released and (b) the reasons why the information is legally exempt from release pursuant to C.G.S. § 1-210(b).

13. Conflict of Interest - Disclosure Statement. Proposers must include a disclosure statement concerning any current business relationships (within the last three (3) years) that pose a conflict of interest, as defined by C.G.S. § 1-85. A conflict of interest exists when a relationship exists between the proposer and a public official (including an elected official) or State employee that may interfere with fair competition or may be adverse to the interests of the State. The existence of a conflict of interest is not, in and of itself, evidence of wrongdoing. A conflict of interest may, however, become a legal matter if a proposer tries to influence, or succeeds in influencing, the outcome of an official decision for their personal or corporate benefit. The Department will determine whether any disclosed conflict of interest poses a substantial advantage to the proposer over the competition, decreases the overall competitiveness of this procurement, or is not in the best interests of the State. In the absence of any conflict of interest, a proposer must affirm such in the disclosure statement. *Example: "[name of proposer] has no current business relationship (within the last three (3) years) that poses a conflict of interest, as defined by C.G.S. § 1-85."*

The Department may make onsite visits to an operational facility or facilities of a proposer to evaluate further

the proposer's capability to perform the duties required by this RFP. At its discretion, the Department may also check or contact any reference provided by the proposer.

8. **RFP Is Not An Offer.** Neither this RFP nor any subsequent discussions shall give rise to any commitment on the part of the State or the Department or confer any rights on any proposer unless and until a contract is fully executed by the necessary parties. The contract document will represent the entire agreement between the proposer and the Department and will supersede all prior negotiations, representations or agreements, alleged or made, between the parties. The State shall assume no liability for costs incurred by the proposer or for payment of services under the terms of the contract until the successful proposer is notified that the contract has been accepted and approved by the Department and, if required, by the Attorney General's Office.

■ D. RIGHTS RESERVED TO THE STATE

By submitting a proposal in response to this RFP, a proposer implicitly accepts that the following rights are reserved to the State:

1. **Timing Sequence.** The timing and sequence of events associated with this RFP shall ultimately be determined by the Department.
2. **Amending or Canceling RFP.** The Department reserves the right to amend or cancel this RFP on any date and at any time, if the Department deems it to be necessary, appropriate, or otherwise in the best interests of the State.
3. **No Acceptable Proposals.** In the event that no acceptable proposals are submitted in response to this RFP, the Department may reopen the procurement process, if it is determined to be in the best interests of the State.

The Department reserves the right to reject the proposal of any proposer who submits a proposal after the submission date and time.
5. **Sole Property of the State.** All proposals submitted in response to this RFP are to be the sole property of the State. Any product, whether acceptable or unacceptable, developed under a contract awarded as a result of this RFP shall be the sole property of the State, unless stated otherwise in this RFP or subsequent contract. 7. **Clerical Errors in Award.** The Department reserves the right to correct inaccurate awards resulting from its clerical errors. This may include, in extreme circumstances, revoking the awarding of a contract already made to a proposer and subsequently awarding the contract to another proposer. Such action on the part of the State shall not constitute a breach of contract on the part of the State since the contract with the initial proposer is deemed to be void *ab initio* and of no effect as if no contract ever existed between the State and the proposer.

- 8. Key Personnel.** When the Department is the sole funder of a purchased service, the Department reserves the right to approve any additions, deletions, or changes in key personnel, with the exception of key personnel who have terminated employment. If the proposer indicates that certain documentation, as required by this RFP, is submitted in confidence, the State will endeavor to keep said information confidential to the extent permitted by law. III. PROGRAM INFORMATION

■ A. DEPARTMENT OVERVIEW

The Connecticut Department of Public Health (DPH) is the state's leader in public health policy and advocacy. The agency is the center of a comprehensive network of public health services, and, is a partner to local health departments for which it provides advocacy, training and certification, technical assistance and consultation, and specialty services such as risk assessment that are not available at the local level. The agency is a source of accurate, up-to-date health information to the Governor, the Legislature, the federal government and local communities. This information is used to monitor the health status of Connecticut's residents, set health priorities and evaluate the effectiveness of health initiatives. The agency is a regulator focused on health outcomes, maintaining a balance between assuring quality and administrative burden on the personnel, facilities and programs regulated. The DPH is a leader on the national scene through direct input to federal agencies and the United States Congress.

The mission of the Connecticut Department of Public Health is to protect and improve the health and safety of the people of Connecticut by:

- Assuring the conditions in which people can be healthy;
- Promoting physical and mental health, and;
- Preventing disease, injury, and disability.

■ B. PROGRAM OVERVIEW

The CT Sickle Cell Disease Program strives to ensure that all CT residents with SCD or carrying the Sickle Cell Trait will have access to primary healthcare and receive comprehensive coordination of healthcare and related services essential to a standard quality of life, free from pain and organ damage to reach their potential and maintain their health throughout the life course.

SCD (sometimes known as sickle cell anemia) is a group of life-long blood disorders that affect hemoglobin, the molecule in red blood cells that delivers oxygen to cells throughout the body. People with this disorder have atypical hemoglobin molecules called hemoglobin S, which can distort red blood cells into a sickle or crescent shape which then clog capillaries. This results in blocked blood flow to organs and tissues which, in turn results in anemia, periodic and severe pain episodes, tissue and organ damage, infections, stroke and even death.

SCD is the most common inherited blood disorder in the United States. In the United States, sickle cell anemia is most prevalent in African-Americans, occurring in about one in every 500 African-American births. Those of Mediterranean, middle Eastern, or Indian background are also affected. It is estimated that more than 2 million Americans are carriers (SC Trait), and that Sickle Cell Disease affects 90,000 to 100,000 Americans. In Connecticut, approximately 1,000 newborns are identified annually with either SCD or Trait through the CT State Newborn Screening Program. The CT Newborn Screening Program, housed at the DPH State Laboratory, has been legislatively mandated through the CT General Statutes, Sec. 19a-55, to screen all newborn births in the state of CT for a panel of 66 genetic disorders, including SCD and Sickle Cell Trait. Those families who have babies with a positive screening test are referred to one of two comprehensive sickle cell treatment centers located at Yale-New Haven Hospital and Connecticut Children's Medical Center for confirmatory testing and treatment planning.

The goals of CT's Sickle Cell Disease Program are to:

1. Increase and conduct community outreach and education to CT residents about SCD, and increase family support activities to those diagnosed with SCD/Trait.
2. Support and create linkages to Medical Homes for primary care, and coordinate access to a medical home. These include linkages to Access and Safety Net Programs.
3. Increase Transition planning and services for efficacious transition from pediatric primary and specialty care to adult services.
4. Develop and support protocols and education/resources regarding addressing the athletic NCAA mandated SCD/Trait screening policies, and disseminate this information to youth in middle schools and high schools during educational sessions.

5. Investigate all currently available data sources, evaluating criteria and developing methodologies to access data for program evaluation, including the development of new data sources, and update of the Connecticut Sickle Cell Disease State Plan.
6. Implement a patient/consumer Satisfaction Survey.
7. Complete a Results Based Accountability Program Report Card to provide at a glance statistics on the CT Sickle Cell Disease and Trait Program.

Children and youth with Sickle Cell Disease are eligible for the DPH's Children and Youth with Special Health Care Needs Program (CYSHCN). This program provides a linkage to a medical home. Medical homes provide accessible, family-centered, continuous, comprehensive, coordinated, and cultural competent care. The DPH currently has five network medical home care coordination contractors that provide care coordination for children and youth with special health care needs in pediatric practices throughout the state. Care coordinators work with pediatric and family practices and families to develop a comprehensive care plan to address the global needs of the child, including basic needs, obtaining adequate insurance coverage (ACA), primary care, specialist referrals, follow up, educational assistance, transition services, family support and resource referrals. The Connecticut SCD Program dovetails with the Medical Home concept and state-wide initiative. The two systems of care provide:

- Coordination of primary healthcare services with the utilization of Access and Safety Net Programs (Federally Qualified Health Centers, School Based Health Centers, pediatric practices)
- Social work
- Pain management services
- Transition services for youth to primary and specialist adult healthcare
- Sickle Cell Trait Testing and Counseling
- Consumer support groups
- Consumer advocacy
- Increase public awareness via educational offerings to the general public, policy makers, students, consumers and health care providers
- Family support through arenas of support groups, advocacy, ensuring educational rights and legal referral sources if these rights are violated

Through timely and effective service coordination, medical home/primary care coordination and prudent exchange of health information, there is great potential to prevent ED visits, decrease the ED wait time, receipt of medications, and alleviate need for inpatient admissions for pain management.

The CT Statewide Comprehensive SCD Consortium serves as a venue for professionals and consumers that provides advisory and educational information to the Department and other partners to promote the most effective care delivery to people in Connecticut who have either SCD/Trait. Consortium partners include, but are not limited to:

- Consumers of health services and their families
- The Hospital for Special Care
- Community Based Organizations- Sickle Cell Disease Association of America Southern CT Chapter & Northern CT Chapter (Citizens for Quality Sickle Cell Care)
- FQHCs
- Yale-New Haven Hospital
- University of CT Health Center
- Connecticut Children's Medical Center
- Department of Public Health

Patient Protection and Affordable Care Act (ACA)

The Patient Protection and Affordable Care Act (ACA) was signed into law in March 2010 and is intended to improve the current health care system by increasing access to health insurance coverage for Americans and new protections for people who have health insurance. The law is designed to decrease the number of uninsured Americans by making quality, affordable health care available to all Americans, reduce costs, improve health care quality, enhance disease prevention, and strengthen the healthcare workforce. The law offers health plans for people with pre-existing conditions who have had trouble

finding care. After full implementation, there will still be a portion of the population in Connecticut which will remain uninsured.

Access and Safety Net Programs

Community Health Centers (CHCs)

Federally Qualified Health Centers (FQHCs) in CT provide comprehensive preventive and primary health care services. The centers are community-based organizations that provide comprehensive primary care and preventive care, including health, oral, and mental health/substance abuse services to persons of all ages, regardless of their ability to pay or health insurance status. In addition, the health centers provide supportive services such as translation, transportation, case management, health education, social services and culturally-sensitive healthcare. Depending on the availability, many offer dental care, mental health and addiction services, school based health care and outreach programs. The FQHCs accept all patients, with particular focus on poor, underserved, persons at risk for poor health, Medicaid beneficiaries, migrant and seasonal farmworkers, the homeless, or the uninsured.

The FQHCs are licensed as outpatient facilities in Connecticut and serve as the medical home for many of the poor, underserved, vulnerable, and at risk for poor health status people who live in communities through the state and are considered a critical component of the health care safety net.

School Based Health Centers (SBHCs)

School Based Health Centers (SBHCs) are comprehensive primary care facilities located in or on the grounds of schools. They are licensed by DPH as outpatient or hospital satellite clinics. SBHCs assure that students, particularly those that are uninsured and underinsured have access to comprehensive health and preventative services needed to be healthy, in school, and ready to learn. SBHCs help schools do their job of educating by improving the health and well-being of students and addressing the health issues that interfere with learning.

SBHCs provide outreach, primary care, mental/behavioral health services and health promotion, health education and risk reduction activities. Primary care and mental/behavioral services are provided in accordance with nationally recognized standards.

Primary care services include, but are not limited to: health assessments, including comprehensive physical exams, health screenings and risk appraisals, individual and group health counseling, diagnosis and treatment of acute illness and injury, management and monitoring of chronic diseases including, but not limited to asthma, obesity and diabetes, administering immunizations, providing reproductive health care as appropriate, laboratory testing and prescribing and administering medications, follow-up and referral to community based health providers or medical home for needed services outside the scope of SBHC practice.

Mental/behavioral health services include, but are not limited to: assessment, diagnosis and treatment of psychological, social and emotional problems, crisis intervention, individual/group/family counseling, psycho-social education, advocacy and case management, outreach to students at risk and referral to community based providers/organizations to address needs outside the scope of SBHC practice.

NOTIFICATION TO BIDDERS

The contract to be awarded is subject to contract compliance requirements mandated by Sections 4a-60 and 4a-60a of the Connecticut General Statutes; and, when the awarding agency is the State, Sections 46a-71 (d) and 46a-81i (d) of the Connecticut General Statutes. There are Contract Compliance Regulations codified at Section 46a-68j-21 through 46a-68j-43 of the Regulations of Connecticut State agencies, which establish a procedure for the awarding of all contracts covered by Sections 4a-60 and 46a-71 (d) of the Connecticut General Statutes.

According to Section 46a-68j-30 (9) of the Contract Compliance Regulations, every agency awarding a contract subject to the contract compliance requirements has an obligation to "aggressively solicit the participation of legitimate minority business enterprises as bidders, contractors, subcontractors and suppliers of materials." "Minority Business Enterprise" is defined in Section 4a-60 of the Connecticut General Statutes as a business wherein fifty-one percent or more of the capital stock, or assets belong to a person or persons: "(1) Who are active in the daily affairs of the enterprise; (2) Who have the power to direct the management and policies of the enterprise; and, (3) Who are members of a minority, as such term is defined in subsection (a) of Section 32-9n." "Minority" groups are defined in Section 32-9n of the Connecticut General Statutes as "(1) Black Americans ... (2) Hispanic Americans ... (3) Women ... (4) Asian Pacific Americans and Pacific Islanders; or (5) American Indians." The above definitions apply to the contract compliance requirements by virtue of Section 46a-68j-21 (11) of the Contract Compliance Regulations.

The awarding agency will consider the following factors when reviewing the bidder's qualifications under the contract compliance requirements.

- a) the bidder's success in implementing an affirmative action plan;
- b) the bidder's success in developing an apprenticeship program complying with Sections 46a-68-1 to 46a-68-18 of the Connecticut General Statutes, inclusive;
- c) the bidder's promise to develop and implement a successful affirmative action plan;
- d) the bidder's submission of EEO-1 data indicating the composition of its workforce is at or near parity when compared to the racial and sexual composition of the workforce in the relevant labor market area; and,
- e) the bidder's promise to set aside a portion of the contract for legitimate minority business enterprises. See Section 46a-68j-30 (10) (E) of the Contract Compliance Regulations.

INSTRUCTION: Bidder must sign acknowledgment below line and return acknowledgment to Awarding Agency along with the bid proposal.

The undersigned acknowledges receiving and reading a copy of the "Notification to Bidders" form.

The Department is also required to establish and inform all employees, contractors, qualified providers and agents about the Department's policies and procedures for the detection and prevention of fraud, waste and abuse, the protection afforded to any person who reports an incident of a false claim to a regulatory body (e.g., Whistleblower Protection) and any civil or criminal penalties for false claims.

4.0 Compliance

4.1 False Claim Act

The FCA prohibits any person, firm, corporation or entity from knowingly presenting, or causing to be presented, a false claim or statement to a federally funded program, including Medicaid, or conspiring to defraud the federal government. Any person, company or entity that acts in deliberate ignorance of or with reckless disregard of the truth of such information is considered to have acted knowingly.

The civil penalty for violating the FCA is a fine of not less than \$5,000 and not more than \$10,000 per violation. The person, company or entity may also be fined an additional three times the amount of damages sustained by the federal government. The PFCRA also provides that any person or company that commits fraud by making a false statement or claim can be assessed a penalty of \$5,000 per false claim or statement in addition to the penalties available under the FCA.

A person may bring a civil action for violating the FCA on behalf of said person and the United States government. If the federal government proceeds with an action brought by such person then that person shall receive at least 15 percent but not more than 25 percent of the proceeds of the action or settlement. If the federal government does not proceed with the action and the person initiating the action proceeds, then the person bringing the action shall receive a reasonable amount, to be determined by the court, but not less than 25% and not more than 30% of the proceeds of the action or settlement.

The FCA prohibits retaliation by an employer against an employee for bringing a false claim action or participating in such action (Whistleblower Protection). Any employee subject to retaliation by an entity, contractor or agent shall be entitled to all relief necessary to make the employee whole, including but not limited to reinstatement, two times the amount of back pay, interest on back pay and special damages.

4.2 State False Claim Related Acts

Under Connecticut's Vendor Fraud statute it is illegal for a person on his own behalf or on the behalf of an entity, with intent, to fraudulently provide goods or services to a beneficiary or recipient under Title XIX or to fraudulently receive goods or services. Connecticut law also prohibits any vendor from fraudulently providing services or goods for any recipient of General Assistance. The State Whistleblower law provides any employee who reports a suspected violation of state or federal law with protection against retaliation by the employer. State law also prohibits any person, corporation, state or political subdivision from blacklisting any employee.
